

<h1>2026 Botball Period 3 Documentation Rubric</h1> <h2>Finishing the Season</h2>		Team Name Team #
(If an item marked as <b>Required</b> is not met, the submission will not be graded)		<b>Points</b>
<b>Outreach and Volunteerism</b>		
Includes images of your team performing your plan for outreach or volunteerism as well as what the plan was and the results. This will be submitted in the form itself.		40
<b>Team Survey</b>		
All team members must fill out the team member survey.		30
<b>Robot Setup Checklist</b>		
This plan should include what you will do in the 90 seconds of setup time before a round. Submit the checklist your team will use for setting up your robot before the start of a round. This should include things like making sure you have wait_for_light, shut_down_in, the robot fits in the start box, the battery is charged, sensors and motors are plugged in, the robot is calibrated, or that you have the jig needed for setting up the robot and more.		30
<b>STL Submission</b>		
Submit all STLs for 3D printed parts that you may use at the tournament. You do not need to submit parts from the parts lists that are provided by KIPR. <b>Otherwise, parts that are not submitted cannot be used on robots in the game.</b>		<b>Required</b>
		<b>Total</b> _____ / 100
