Submission Requirements		
<ul style="list-style-type: none"> - Video is uploaded to YouTube or another link has been provided. Don't be afraid to have fun in the making of the video! - The submitted video and code must be original work completed solely by students on the submitting team. - The submitted file must be original work completed solely by students on the submitting team. - The robots must be running on or scoring on the 2026 game table and cannot be the demo-bot. - File CANNOT be a duplicate of the mechanical video or code for other teams at your school or within your organization! <p>Does the submission meet all the minimum requirements?</p>		5
Mechanical		
Introduction	The team name and number are included in the video. Only registered school/community/homeschool names are accepted.	3
Design/Strategy	What are the overall strategy/goals for the robot? Is it explained thoroughly?	10
	What are the different effectors on the robot? Are the effectors thoroughly explained? What are the effectors going to accomplish?	10
	Choose an effector on the robot and explain how it was designed. Do not just list the parts from the parts lists. Give a thorough explanation.	10
Testing	How well did the effector work? Was it effective?	5
	How was the effector tested, or what testing was done in its design, and how was the data recorded? Explain thoroughly.	10
	What improvements could be made to the effector based on your recorded data and testing? Explain thoroughly.	10
	Clear images of the robot being reviewed.	10
Code		
Upload code to GitHub or another service, or submit a file including the code in the submission if you cannot upload it. If submitting on GitHub, the repository must be public or shared with the KIPR-Submissions GitHub account. Is all of the above true?		5
The code must make effective use of white space and commenting to make it easy to understand.		5
Creativity: Do not be afraid to be creative and make the video entertaining.		
Was the video creative?		7
Video is at least 2 minutes and no longer than 4 minutes.		5
Total		____ / 95
